

WRITING WRONG CARY OVER COURSES

it has been detected by our system at the MIS that some students sat for Carry Over courses in 2016/17 which is not the real course they carried over in 2015/16 Session. (*deceptive*) fortunately = unfortunately they passed those courses which they wrongly sat for. For exmamples:

15/18769 had a cary over in EDU123 in 2015/16 sesion

The above listed students are advised to compare the courses they failed in 2015/16 with the carry overs they sat for and passed in 2016/17 and reorganise themselves quickly to come and re-write the real course they carried over this year so that they will not be disappointed on the day they will want to come and collect their certificate.

The MIS is equally appealing to ALL carry over students in their own interest that they find out the real course they failed and are carrying over before registering for it and writing the exam in order to avoid automatic re-carry over.
